EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows: In claim 2, line 13 a comma was inserted after "body" for proper grammar.

In the last line of paragraph [0090], "48" was changed to --48R--.

2. The following is an examiner's statement of reasons for allowance: Regarding claim 8, the prior art fails to suggest, in combination with the other elements recited, a pair of turn control levers on respective handlebars extending from the vehicle undergoing angular movements and each connected to respective ones of the brakes and a respective electric motor so that the electric motors undergo rotation simultaneously in opposite directions in accordance with the preselected angular positions of the turn control levers to turn the motorized vehicle while the vehicle does not undergo travelling.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
